

PRIYANSH SAXENA

Bhopal, Madhya Pradesh | +91 7748817030 | Priyanshsaxena224@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

B.Tech (CSE - Data Science) student with hands-on experience building full-stack and Python-based applications, including computer vision and REST API projects. Skilled in Python, SQL, FastAPI, React.js, and data handling with Pandas/NumPy. Certified in Generative AI (Oracle) and Prompt Engineering (NASSCOM/MeitY). Seeking an entry-level technology role to apply software development and data skills in an AI-driven environment.

EDUCATION

B.Tech, Computer Science & Engineering (Data Science)

LNCT Excellence (LNCTE), Bhopal — RGPV | Graduation: 2027 | CGPA: 6.82 | Course Type: Full-time

12th (HSC), MP Board

Holy Angels Kids Academy — 2023 | 66.6% | Course Type: Full-time

10th (SSC), MP Board

Holy Angels Kids Academy — 2021 | 71% | Course Type: Full-time

SKILLS

Languages: Python, SQL, Java

Development: FastAPI, REST APIs, React.js, HTML5, CSS3, Tailwind CSS, Streamlit

Data & AI: Pandas, NumPy, OpenCV, YuNet, SFace

Databases: MySQL, SQLite

Tools & Platforms: Git, GitHub, VS Code, Oracle Cloud Infrastructure, Microsoft Azure SQL, ServiceNow

STRONG SUBJECTS

Data Structures & Algorithms, Database Management Systems (DBMS), Object-Oriented Programming (OOP), Operating Systems, Computer Networks

PROJECTS

AI Face Recognition Attendance System | Python, Streamlit, OpenCV (YuNet + SFace), NumPy, Pandas, SQLite

- Built a camera-based attendance system using YuNet for face detection and SFace for face recognition.
- Implemented student registration, face embeddings, automated attendance, and SQLite-based data storage.
- Added same-day duplicate prevention and unknown-student registration handling.
- Built Streamlit analytics dashboard with date filtering, search, individual analytics, charts, and CSV export.

GitHub: github.com/saxenapriyansh-codes/AI-Face-Attendance-System | Demo: priyansh-face-attendance.streamlit.app

Village Development Data Platform | React.js, FastAPI, Python, Pandas, MySQL, SQLAlchemy, Tailwind CSS

- Built a full-stack platform covering government datasets for 54,903 Madhya Pradesh villages.
- Developed REST APIs for village-level datasets with search, filtering, sorting, pagination, and drill-down.
- Used Pandas for data cleaning/transformation and MySQL for relational data storage.
- Implemented demographic, education, healthcare, infrastructure, and population dataset APIs.
- Built modular frontend/backend architecture for data exploration and analytics.

Student Record Management System | Java, OOP, File Handling, CRUD, Console I/O

- Built a menu-driven Java application for adding, viewing, updating, and deleting student records.
- Applied OOP concepts, constructors, methods, loops, switch-case, and exception handling.
- Implemented persistent storage using Java File I/O with BufferedReader/Writer and FileReader/Writer.

CERTIFICATIONS

- Prompt Engineering and ChatGPT — FutureSkills Prime (NASSCOM/MeitY), Gold, 82% (2026)
- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional — Oracle
- Google Data Analytics Professional Certificate — Google/Coursera
- ServiceNow Virtual Internship Program — ServiceNow University
- Cisco Python Essentials 1 & 2 — Cisco Networking Academy
- CCNA — Cisco Networking Academy

EXPERIENCE

ServiceNow Virtual Internship Program | ServiceNow University

Virtual, project-based internship.
